da Vinci Robot
THE MACHINE THAT CUTS OUT CANCER

GRACE

We are delighted that the Epworth Choir has arranged this concert in aid of GRACE. Events such as this one not only provide very valuable funds, for which we are extremely grateful, but also give us an ideal forum for raising awareness of these cancers.

Please help GRACE (Gynae-oncology Research And Clinical Excellence) to raise the £1.25million necessary to purchase the da Vinci Robotic System for the St Luke's Cancer Centre at the Royal Surrey County Hospital. This equipment is known colloquially as "the machine that cuts out cancer" and will completely revolutionise cancer surgery for both men and women as it is equally applicable in the treatment of prostate cancer as well as gynae cancers and others such as stomach, liver and bowel cancers. The system is much more accurate than conventional minimal access surgery because the robot mimics the surgeon's hands enhancing precision and dexterity vital to the success of preserving delicate nerves and blood vessels. As a result the patient has less scarring, less risk of infection, less blood loss and therefore the need for transfusions is reduced, all of which adds up to a faster recovery, a shorter hospital stay and a much quicker return to normal life!

This is your opportunity to help revolutionise local cancer treatment by contributing towards the purchase of a da Vinci® robotic system for the Surrey, West Sussex and Hampshire Cancer Network. This system would ensure that we continue to offer the very best treatment to thousands more men and women living with the devastating effects of cancer.

Cancer cuts through all of our lives, whatever our background, race, religion, occupation or status so please make a donation towards the da Vinci® robotic system and if you pay UK Income tax or Capital Gains Tax don't forget to complete a Gift Aid Declaration (available on our website www.grace-charity.org.uk) which means that we can increase your gift by £1 for every £4 you donate.

Thank you for taking the time to read this letter. I do hope that you will consider our request favourably and do enjoy the concert!
