

GOODNESS GRACIOUS TEA

Join us for a Tea Party to support women diagnosed with gynaecological cancers. We will indulge in some delicious homemade cakes and a cuppa or two, and help to support GRACE at the same time.

Gynae-oncology Research
and Clinical Excellence

GET INVOLVED AND HELP TO CHANGE LIVES

GRACE (Gynae-oncology Research and Clinical Excellence) aims to raise standards of gynaecological cancer care and treatment, and improve survival rates for women across Surrey, West Sussex and Hampshire.

We promote early diagnosis through awareness and raise funds to support ground-breaking research into the cause, progression and treatment of these cancers.

- **We provide** vital equipment to treat women in hospitals across Surrey, West Sussex and Hampshire
- **We helped** to purchase the da Vinci® surgical robot, enabling women to benefit from minimally invasive surgery, with fewer complications and faster recovery
- **We are funding** a new study to help improve survival rates of women with ovarian cancer
